Re: Farm Bureau Addition & Renovation Project
Letter of Appreciation

Dear Mike:

Brian and I would like you to know how pleased we are with the exceptional performance of Dave Hufnagel on Farm Bureau Insurance's Renovation and Addition Project. And we know, first hand, that Farm Bureau and ESHB share our sentiments.

Dave knows how to get things done and always made decisions based on what was "right"—a characteristic we hold in very high esteem. The fact that our superintendent had to talk with you, the Project Manager only a handful of times over the past three years speaks volumes about Dave's commitment and the pride he takes in the quality of work he and your firm deliver.

While there have been moments of tension on this job, Dave navigated through them with courtesy and the utmost in professionalism. He did an excellent job representing your firm.

While our hats are off in gratitude to Dave, they're also off to you and Superior Electric for the vision to have a person of Dave's caliber on your staff.

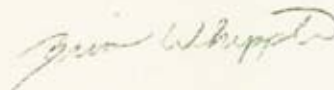

Thank you for a job well done!

We look forward to working with Superior Electric of Lansing, Inc. again in the near future.

Sincerely,
GRANGER CONSTRUCTION COMPANY

Glenn J. Simon
Project Manager

Brian Whipple
Project Superintendent
