St. Louis, MO 63141

**RE: Superior Electric of Lansing, Inc.
Letter of Reference**

Dear Mr. Parks:

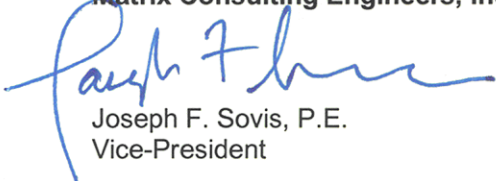

I have worked with Superior Electric for nearly 20 years on various projects in and around the Lansing, Michigan area. During this time they have worked on many types of projects including Healthcare, Educational, Industrial and Religious Buildings.

Recently, they completed a 340,000 square foot office building and a four story renovation of the Treasury Building for the State of Michigan. Steve Karkau was the electrical superintendent for both projects. He was one of the key reasons the projects were successful to all parties.

I would have no problem using Superior Electric on any project that I am involved with. If you have any questions or I can be of assistance to you, please let me know.

Sincerely,

Matrix Consulting Engineers, Inc.

Joseph F. Sovis, P.E.
Vice-President
