RE: MSU Radiology M2 Upgrades

Dear Mr. Boyer:

This letter is to recognize an outstanding performance by both Mark Stygles and Mark Toaz on the above named project. They went above and beyond to cater to all of the Owner and our needs on the project and jumped on several emergencies (not in our scope of work) that Radiology had in other areas of the building while on site. Superior once again did a SUPERIOR job and these two gentlemen made the project enjoyable while still meeting all of the critical deadlines.

Thank you again for the putting the A-team on this project and the fantastic job they did. We look forward to working with Superior Electric again on future projects.

Sincerely,
Christman Constructors, Inc.

Tyler Mance
Project Manager/Estimator
